

Apple Laptops' Diagnostic techniques, tips, howto

MacBook 2015 Retina 12 inch open

MacBook 2015 Retina 12 inch, screen and trackpad are calibrated before ship out the factory. Back cover is glued. It can only be opened by special tool by Tech, but this will lose the calibration.

If the Refurb got the unit from tech, just salvage it or training only. There is no need to clean and sale the unit.
