Windows OS and App

MS Paint running in task manager but not displaying on screen nor visible in task bar

If it's in task manager it's running. It just isn't displaying a window.

Solution:
1. Press key: Alt+Tabing to MSpaint program.
2. Press key: Alt+space
3. Press key: M
4. Left click mouse and drag to the middle. Then you should see the Paint program being dragged to the sscreen.
