

## **Windows Laptops/Netbook related**

### **Synaptic touchpad became not working after installing SDI (Snoopy Driver).**

Some HP and Acer laptops use Synaptics touchpad. After installing SDI (Snoopy Driver) and reboot the unit, the mouse is not working anymore.

e.g. Synaptics SMBus Touchpad

Resolution:

1. Don't install it.
2. Uninstall the device driver under "Device Manager", and reboot the system.
